HEALTHCARE

Brother scanner provides a perfect solution for hospital and healthcare organization. With reliable paper handling functions and a range of advance image processing capabilities, it makes repetitive workflow process quicker and more efficient. Brother scanner also works with various Document Management System (DMS) solution in the world.

GOVERNMENT

Brother Scanner helps in government offices with features such as built-in automatic document feeders for rapid, unattended scanning of multiple documents, and flatbed scanners for books, bound reports, or fragile originals. Brother's technology ensures compliance with government rules and regulations.

EDUCATION

Brother Scanners provide a fantastic solution for educational institutions and similar organizations. It helps to store sensitive data such as student records, LJK (Lembar Jawaban Kerja / Answer Sheet), Curriculum data and environmental-friendly administration.

BANKING

With Brother Scanner, banks can capture and extract valuable information from any paper or electronic document, including checks, credit card applications, and other lending documents, identification cards, and improve the speed and accuracy.

INCREASE YOUR EFFICIENCY
BY DIGITIZING YOUR DOCUMENT

MOBILE SCANNING

Compact & portable document scanners enables document capture, edit and share digitally on the move. The small footprint makes this range a perfect choice where space is at a premium. Whether on a reception desk where space is limited or when you are out of the office, digiitsing file is simple.

NETWORK SCANNING

Upload documents without having to login to main PC or to install softwares in several location points using network scanning feature. This feature allows the scan result to be shared to the whole team and department with minimum fuss.

(only for ADS-2400N, ADS-2800W, ADS-3000N, ADS-3600W)

SCAN TO USB : PC-LESS SCANNING

Scan to USB feature allows the connection from external data storage device so you can directly save your scanned documents anywhere, anytime.

SCAN TO CLOUD

Upload directly to Cloud without using PC or laptop, scan directly to Cloud to share documents with others and even access information using mobile devices.
